

5/18/21

Hi, my name is Skye Tanzmann, I am a sophomore at East Hampton High School.

Today, I represent the 85 members of the East Hampton High School's Environmental Awareness Club.

Our advisor, Mr. Peterson, gives members plenty of opportunities to help within our community, yet this Balloon Ban was one that truly caught the attention of our club.

Several students were instrumental in taking action to support the proposed ban.

Gianna D'Agostino, who wrote the letter that Mr. Peterson read, as well as Sadie Cober, Kristina Baratta, Maddie Gaibor, Ava Arcoleo, Colin Harrison and I were able to canvas the school and gather 385 signatures for this petition against the sale and distribution of helium and gas-filled balloons within East Hampton Town.

Living in a coastal community, the students of EHHS, are true advocates for this cause as balloons are incredibly harmful to our fragile environment.

Last week, within the span of a 20 minute walk, my mom found nine balloons on Wainscott Beach. Those balloons might have come from a fun birthday or graduation party, and they may seem harmless, but they are detrimental to our ecosystems.

"The Ocean Conservancy's annual International Coastal Cleanup reports that from 2008 to 2016 almost 300,000 balloons were found along U.S. beaches."

Additionally, "Helium is the only element on the planet that is a completely nonrenewable resource.". Once it's gone, it's gone.

East Hampton does not need balloons to decorate or celebrate special occasions, when the cost is the health of our local environment and our planet.

This ban would be immensely beneficial for our community and its future.

East Hampton Town Board  
159 Pantigo Road  
East Hampton, NY 11937

May 18, 2021

Dear Town Board Members,

We, the members of the East Hampton High School Environmental Awareness Club and members of the East Hampton High School Community, support the proposed town-wide ban on the sale and distribution of helium and gas-filled balloons.

Long-lasting balloons are able to travel thousands of miles and pollute the most pristine areas of our planet. They enter our local ecosystems and surrounding waters and kill off animal species which is detrimental to both our local environs and the planet. Balloons are also a waste of helium which is a finite resource.

We respectfully request that the town considers assisting our local balloon-selling merchants to discover alternatives to balloon sales in order to support the merchants' economic vitality.

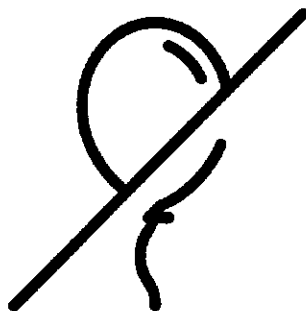

As the successors of and stakeholders in our town, we believe that it is important to help reduce the amount of pollution that goes into our environment and this is one step in the right direction. We respectfully submit with this letter signatures that support the ban.

Sincerely,

The Members of the East Hampton High School Environmental Awareness Club and  
Members of the East Hampton High School Community

**PETITION TO BAN THE SALE AND DISTRIBUTION OF  
HELIUM AND GAS-FILLED BALLOONS**

We, the undersigned members of the East Hampton High School Environmental Awareness Club and members of the East Hampton High School Community, support the proposed town-wide ban on the sale and distribution of helium and gas-filled balloons.

Long-lasting balloons are able to travel thousands of miles and pollute the most pristine areas of our planet. They enter our local ecosystems and surrounding waters and kill off animal species which is detrimental to both our local environs and the planet. Balloons are also a waste of helium which is a finite resource.

We respectfully request that the town considers assisting our local balloon-selling merchants to discover alternatives to balloon sales in order to support the merchants' economic vitality.

As the successors of and stakeholders in our town, we believe that it is important to help reduce the amount of pollution that goes into our environment and this is one step in the right direction. We respectfully submit with this letter signatures that support the ban.

Signed,

(see attached signature list)
